## ALICE BEARD PA-C

After graduating from The University of Florida, College of Medicine, Physician Assistant Program, Mrs Beard worked in general medicine for 5 years before focusing primarily on Dermatology. With 10 years experience in general & aesthetic dermatology, ranging from the infant through the elderly, Mrs Beard discovered a real gift & her passion for the skin. Noting the gap between insurance covered dermatology procedures and those procedures not covered, yet often times needed by patients, Mrs Beard founded Premier Medical Spa.
